

Pickleball Tutor is the world's #1 selling pickleball machine. We offer two models with similar capabilities, but differing in the type of spin each can put on the ball.

The Pickleball Tutor Spin model is designed for recreational and local tournament players who are most likely to see sidespin shots, especially when returning serve.

The Pickleball Tutor Plus model is ideal for regional and national tournament players who regularly see backspin approach shots, topspin drives, and topspin passing shots.

SPIN & PLUS COMMON FEATURES

Shoot any type of shot including:

- Serves • Groundstrokes • Dinks • Lobs • Drives
- **Ball Speed** – Up to 60 MPH (SPIN) / 65 MPH (PLUS)
- **Ball Feed** – From every one second (for quick-reaction volleys) to every 10 seconds.
- **Holds 125 pickleballs (SPIN) / 110 (PLUS)**
- **Throws both outdoor and indoor pickleballs.**
- **Start-up time delay** allows time to get to the other side of the net before balls begin shooting.
- **Rechargeable Battery** – Built-in battery provides up to four hours of playing time per charge.
- **Smart Battery Charger** – Fully charges the battery overnight & shuts off automatically to prevent over-charging.
- **Random Oscillator** – Optional (SPIN) / Included (PLUS)
- **Available AC-powered** instead of battery-powered at no additional charge.

PICKLEBALL TUTOR SPIN SPECIAL FEATURES

- **Sidespin** - Adjustable from no spin to a left or right movement of several feet.

- **Lightweight** - less than 30 lbs. with handle for carrying. and includes a lightweight tow cart for easier transport.

PICKLEBALL TUTOR PLUS SPECIAL FEATURES

- **Topspin and Backspin** - A single dial controls the amount of topspin or backspin.

- **Built-in towing wheels** and handle for easy transport (no towing cart).

OPTIONAL FEATURES

(must be ordered at time of purchase)

- **2-Line Feature** (available on machines with oscillator) Automatically shoots to two preset court positions. This feature allows you to practice alternating forehand and backhand shots, or allows two players to practice at the same time.
- **Two-button wireless remote** starts & stops ball delivery, and controls side-to-side position of ball throws.
- **Electronic Elevation** - Ball trajectory is controlled by a simple electronic switch on the control panel rather than the manual knob control.
